New Carpets!

Our Spring Importations of Carpets, Linoleums, Rugs, Mattings, &c., have now arrived.

In Carpets we have one of the largest and most extensive selections of patterns that we have ever shown.

Please remember that we carry a larger assortment of carpets than all the other Carpet Houses in Belleville put together.

Millinery Goods.

We do not buy such goods as these unless we get them at a bargain. So, that anything we offer in this line is much below what it is sold elsewhere.

We have just received some very cheap lines in

Plumes, Dutch Tips, Flowers, Ladies Hats, Lace Caps, and a variety of Fancy Goods, such as Embroidery, Silks, Pungos, Silk Fringes, &c., very cheap.

MERE MENTION.

Dut is beginning to circulate on Front street.

The police sheltered one tramp since Saturday.

Mr. Morrison, the contractor, is in the city to complete the water works standpipes.

There is to be a big ball at Treason on Friday night. The L. O. O. F. orchestra will furnish the music.

Mr. F. L. Lingham, in writing to a friend from India, says he is in good health and can stand the heat like a native.

The delegation from the City Council to the Dominion Government to harbor grant will leave for the Capital at noon to-morrow.

LADIES.—We have a beautiful stock of dress goods and trimmings to match. You will find, on comparison, our prices much less than what is asked in other stores for the same class of goods.—JAS. HENNESSY.

GENTS.—Leave your orders now for clothing. We have by far the finest selection of clothes and trunks you will find in the city, and his goods are marked to sell on the dollar, which insures the best value.—J. HENNESSY.

MR. LAURANCE, the eminent Oculist Optician will be at N. S. Morden & Co's Drug Store on Tuesday and Wednesday next 10th and 11th inst. for the purpose of adjusting the B. Laurance, Feltz and other spectacles and eye-glasses to all conditions of sight. His thorough knowledge of his profession and large experience enables him to select such lenses as best suit each case, each requirement, however difficult, and always conforms to the wishes of the B. Laurance spectacle wearers and comfort, and an abiding improvement to their sight.

I have been a sufferer from colic for the past eight years. Having tried a number of remedies advertised "cure cures" without obtaining any relief, I had resolved never to take any patent medicine, when a friend advised me to try Elys Cream Salve. I did so with great reluctance, but can now testify with pleasure that after using it for six weeks I believe myself cured. It is a most agreeable remedy.—an invaluable Balm.—Joseph Stewart, 624 Grand Ave., Brooklyn.

PERSONAL.

MR. E. K. Harris, who has been for the past two years in the employment of Mr. Donnelly, through the good offices of that gentleman, secured a responsible position with the Cremona Cornet company at Toronto.

The Rev. Dr. and Mrs. Magellan are in the city, paying a farewell visit to relatives and friends before sailing for Japan.

MR. A. B. Wainwright left for New York this morning. He intended going to California, but persons returning from there advised him not to go to California. He will be missed, especially by Bridge Street Sunday School, whose services as a chorister have been very much appreciated.

Mr. Wm. Sutherland, Jr., and family, late of Carlton Place, have returned to the city.

PROBABILITIES.
Toronto, April 9.—Winds mostly southerly; fair weather; higher temperatures.

An Alleged Impostor.
The converted French priest whom the Salvationists brought to Belleville a few weeks ago is publicly denouncing as an impostor. Father David, of Kingston, says he is an adventurer and was never ordained by a Bishop.

In Hard Luck.
Mr. Sawtell, who had such a hill work in Belleville during his week's engagement, in consequence of the rain, was forced again in Cornwall. He reached that town the same day that the Salvation Army opened fire, and had to pass some 6000 there as he did here.

Wearing our Hatpity.
The harbor is open almost to the light-house. Every day the field of open water is extending. Pleas are open to day where foot-passengers travelled on Saturday. A short distance on the lake ice seems firm; a pig was seen crossing in the neighborhood of the city in the morning.

Water Works.
The Kingston *Wily* says—Capt. T. J. Croswell, friends in the city will be pleased to learn that he has returned as the local representative of Moffatt, Hodgkins & Clarke, water works, electric light and sewer builders, Waterloo, N. Y. By the way, the water works will be in operation thirty-two different works in the United States and Canada, including Cornwall, Belleville, Oshawa and Barrie in Ontario.

GOOD BOYS BE YOUNG.
Unless they are fed on Vitamins made by Imperial Cream Tasting Powder.

The Work at St. Michael's.
Work is being pushed briskly at the new St. Michael's church, and it will not be long before building operations will be in progress for which purpose work will have been finished in wood and steel. Mr. F. Dolan, who will do the plastering, has the south side lathed and will soon be ready to plaster. Quinlan & Shaw, who have the contract for the stone work, will have stone masons and cutters at work in a few days, when the building will be pushed to a speedy completion.

As Good as Any.
The opinion has prevailed in Belleville that a good iron column for building purposes could not be secured any nearer home than Toronto. The contractors for repairs on the John street bridge have given J. M. Walker & Co. a trial and the first column turned out is pronounced a beauty by Mr. J. Smith, the congregation's inspector of the building. He stated that the column is as true and free from flaw as any he has ever seen.

The Three Hundred Days in 1888.
In his article on "Where to Spend the Summer," in *Scribner's* for April, General Greely, chief signal officer, makes a prophecy as to the hottest days in the year 1888. The *Detroit Journal*, taking the matter up, offered a prize of \$500 to the person guessing correctly the number of the days the 3 days will be. Gen. Greely immediately telegraphed his guess to the paper, in accord with his reasons in *Scribner's*.

A Lamp Lighter's Troubles.
Ald. Hay has repeatedly complained in the Council and in committee of the inefficient service rendered by Peter Milne, lamp lighter for Belleville ward. One day last week Ald. Hay's own son was troubling with a lamp, as all boys have done since the time of David and Goliath, when, by a mischance, a glass in a street lamp was broken. The corporation pays for repairs, but in this case the boy was injured before the accident. The nature of the accident was explained, when the boy was damaged upon paying the cost of replacing the glass, 20 cents.

Fatal Fire.
TWO OLD MEN ORNAMENTED IN THEIR DWELLING.
Barrie, Ont., April 9.—John and David Brown, aged 82 and 84 years, living together in Nishnabour, were burned to death on Saturday afternoon. They were seen walking around in the morning. In the afternoon the neighbors discovered the house burning to the ground and nothing but the charred bones of the poor old men left. The origin of the fire will never be known.

A Kingston Church Burned.

St. Andrew's Church, Kingston, was destroyed by fire at 3 o'clock Sunday morning. The fire broke out in the vestry and the furniture about the pulpit being saved. St. Andrew's church was one of the oldest in the Province, having been built over 100 years ago. It was destroyed by fire on the 2nd of April. PARMELEE'S
Asphetic ROOF PAINT

It will outlast the rusting of
and iron roofs.

It will entirely stop the wearing
and decay of the exposed wood of shingle
roofs.

It has been accepted by the City,
County, and the chief Real Estate
Companies of this city.

I will be glad to give estimates of cost
any time and on any plan.

Troubled Ireland.

DEPUTY LEADERSHIP OF THE IRELAND.

KILKILLY, April 9.—Saturday night some policemen who were trying to prevent the erection of a platform for the meeting announced for today were pelted with stones by a mob and were compelled to charge the crowd. Many civilians were badly injured.

POLICE AND MILITARY CHARGES.

Mr. TANNER, M.P., held a meeting at his residence at 11 o'clock this morning. He there turned a copy of the Government proclamation A.D. 1887, the advertisement how, being brought in from the grounds. There was no slight excitement. About 6,000 people belonging to the various language branches of Kilgus assembled at 2:30 p. m. There was a large contingent on horseback. The police, led by Magistrate Welch and Irwin, charged the crowd, injuring many. A number of civilians and policemen were killed. Father of Kilgus, was attacked by a policeman with a stick. A farmer followed one policeman to the ground with a black-thorn stick. A not being charged the police, the crowd, led by Captain Lynch, charged the crowd and many persons were badly wounded. Order was somewhat restored in the crowd and they retired by the main road. Mr. Redmond and Co., members of Parliament. Mr. Redmond then attempted to organize the meeting which had been here before announced, but was prevented by Magistrate Irwin. Mr. Redmond then attempted to organize the meeting which had been here before announced, but was prevented by Magistrate Irwin.

THE FIVE SEVEN CASE.

"WHEN WILL IT LIE DOWN?"

It is a question which has frequently been asked by the Irish people, but the answer is not yet given. Here is an example, taken from the Ottawa Free Press of the 7th inst.

The opponents of unrestricted reciprocity seem to be apprehensive that if such a policy was carried into effect, there would be a fearful reduction of revenue. Here is a pointer for them. They assert that under the free trade policy of the United States, the importation of manufactured goods from the United States has been entirely stopped. Granting that this is true, all the revenue derived from imports from the United States must be paid on articles of national produce—on cotton, wool, sugar, etc. Government say they are willing to import free as soon as the Americans will do the same. Hence the loss of revenue would be no greater under unrestricted reciprocity than it would be in Sir John Macdonald's standing offer of reciprocity in natural products was accepted by the United States.

Is the Free Press foolish enough to believe that any Conservative—or, if it prefers, any opponent of unrestricted reciprocity—would make such an assertion as this? It is a question which has frequently been asked by the Irish people, but the answer is not yet given. Here is an example, taken from the Ottawa Free Press of the 7th inst.

FRANCE: Boulanger, Mad.

THE OFFICIAL GENERAL FLEET OF THE FLEET.

PARIS, April 9.—General Boulanger has been returned to parliament for two districts and nothing else is thought of in Paris. The leaders and other chance came with some in lower of the democratic leader. A great cost of money was expended in this industrial electioneering campaign. In the department of Doubs Boulanger had the support of the Radicals, the Monarchists and the Republicans as eager as he himself to push him forward to the top of the list.

PARIS, April 9.—In the election yesterday to fill the vacancy in the Chamber of Deputies from the department of Doubs, Gen. Boulanger was elected.

He received 19,000 votes against 15,750 for M. C. Lormanno, the Opportunist candidate. The result was unexpected and has increased the position of the Conservatives and declared the Boulanger movement a public danger and urgent measures are demanded to check it.

The Boulangerists assert the result of the Doubs election proves that the country is in a state of anarchy and that the Chamber of Deputies and the revision of the constitution. Gen. Boulanger refused to contest the seat for the department of Doubs, but his friends forced him to do so.

PARIS, April 9.—La Liberté says Gen. Boulanger will refuse to accept the seat for Doubs, as he desired to sit for the department Du Nord only.

CATALAN.

A New Home Treatment for the Cure of Catarrh, Cystitis, Gonorrhea and Prostatitis.

The microscope has proved that these diseases are contagious, and that they are due to the presence of living parasites in the secretions of the prostate, bladder, urethra, and testicles. The only reliable cure is by the use of the "New Home Treatment," which is a natural consequence of such treatment. It is an absolute fact that these diseases cannot be cured by any application made after once in two weeks, for the membrane must get a chance to heal before an application is repeated. It is now seven years since Mr. Dixon discovered the parasite in catarrh and formulated his new treatment, and since then his remedy has become a household word in every country where the English language is spoken. Cure offered for less than one year's cure still, there having been no return of the disease.

So lately these remedies valued that ignorant imitators have started up everywhere, pretending to destroy a parasite, which they know nothing, by means of the results of the application of which they are equally ignorant. The "New Home Treatment" is applied only once in two weeks, and from one to three applications effect a permanent cure.

Mr. Dixon sends a pamphlet describing his new treatment on the receipt of a stamp to pay postage. The address is: H. D. Dixon, 303 King Street West, Toronto, Canada.—Scientific American.

The Floods in Spain.

FIFTEEN THOUSAND VILLAGES WITHOUT SHEETS—250 VILLAGES IN RUINS.

BERLIN, April 9.—The Express of Germany will go to Spain today to enquire into the condition of the sufferers by the flood. Dreadful accounts have been received from Spain. 250 villages are in ruins, and 15,000 persons are without shelter. When the dykes at Warlike gave way a large number of lives were lost. A famine is threatened in Spain, Portugal and Sicily, and the number of persons emigrating to America will soon be enormously increased.

His Own Personal Sorrow.

DRAMATIC AND EXTRAORDINARY SCENE IN A COUNTRY CHURCH.

ATHENS, Greece, April 9.—Rev. Dr. Brydges, 84 years old, preached his own funeral sermon yesterday in a small country church six miles from here. He had his grave dug and a coffin for the occasion. He and his assistants sang the first song. "Shall we gladly meet." He then gave his text and gave the large crowd a short talk.

Morocco and the United States.

TANGIER, April 9.—A treaty was signed yesterday whereby the Sultan agreed to leave the dispute between the United States and Morocco to the decision of a Moroccan representative and the American Consul. If they fail to agree a European referee will be nominated whose decision shall be final.

Knights of Labor Demonstration.

The Spanish Knights of Labor intend holding a grand Labor Demonstration on the 24th of May. Knights from Kingston, Manawake and Belleville will take part. The Belleville Knights are sending a large number of delegates to the demonstration.

THANKFUL.

Some time ago being very greatly troubled with cold and cough, I went to the doctor and got Dr. Hagar's Family Balsam. I used it for some time and it cured me. I am now well and am thankful to it. I am, Sir, Dr. Hagar, Belleville, Ont.

Expulsion of Jews.

ORZARA, April 9.—It is officially announced that all foreign Jews in this city, numbering 10,000 families, chiefly natives of Austria and Roumania, will be expelled shortly.

The Fishery Treaty.

WASHINGTON, April 9. There seems to be little doubt that the Fishery treaty will be put into effect shortly. The administration favors this course.

Bismarck is reported to be seriously ill.

BERLIN, April 9.—The news of the illness of Bismarck is reported to be seriously ill. He is said to be in a very weak state of health.

Parliamentary Chambering.

PARLIAMENTARY CHAMBERING is the name of the new system of building houses, which is now being introduced in England. It is a system of building houses in which the walls are made of concrete and the roofs are made of iron and steel.

New Carpets!

Our Spring Importations of CARPETS, LINOLEUMS, RUGS, MATTINGS, &c., have now arrived.

In Carpets we have one of the largest and latest selections of patterns that we have ever shown.

Please remember that we carry a larger assortment of carpets than all the other Carpet Houses in Belleville put together.

Millinery Goods.

We do not buy such goods as these unless we get them at a bargain. So, that anything we offer in this line is much below what it is sold elsewhere.

We have just received some very cheap lines in

Plumes, Feather Tips, Flowers, Ladies' Hats, Lace Caps.

and a variety of Fancy Goods, such as Embroidery, Silks, Purses, Silk Fringes, &c., very cheap.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

THE STORY OF CHRISTIAN LORCH.

Some months ago a man named Christian Lorch, who had with him his wife and three children, emigrated from Germany, reached this country, and, after a short stay, he was taken to a hospital, where he died. His family, who had been with him, were taken to a hospital, where they died. His family, who had been with him, were taken to a hospital, where they died.

Four weeks had passed and one morning the carrier left a letter for the family. It was a letter from the family, who had been with him, were taken to a hospital, where they died. His family, who had been with him, were taken to a hospital, where they died.

When the carrier left the letter, it was a letter from the family, who had been with him, were taken to a hospital, where they died. His family, who had been with him, were taken to a hospital, where they died.

Daily Intelligence.

BELLEVILLE, FRIDAY, APRIL 20.

HERE MENTION.

There are budding.

Campbellford has organized a base ball club.

The hotels are having a heavy patronage just now.

The brick layers of Peterborough have formed a union.

The marines, the true harbingers of spring, have arrived.

An exchange advocated the formation of a society for the settlement of debt.

Harvesters the wheelman's club run at 6:45 tonight. A good muster is desired.

The farm house of Philip White, Raydon, was consumed by fire on Wednesday.

There is a good demand for Crowsley and Hunter's photographs, especially the large ones.

Last night officer Hayes found a pall of death front of a grocery after locking up time.

Recent frosts have done considerable damage to fall wheat and meadows in this district.

There will be a meeting at Bridge Street Church to-night for young converts and anxious ones.

Mr. John Keith, of Seymour, has lost eight cows and two sheep from poisoning with Paris Green.

Many farmers in Sidney and Thudow have commenced spring work. Some showing has been done.

The North Hastings Agricultural society are putting up an exhibition building on their grounds at Burlington.

An evangelistic meeting will be held this evening in the Bridge St. Sunday School room, at 7:30, to which all are invited.

The first wild goose of the season was shot by Mr. Henry Freely yesterday. It came in from the Lord John Gilgob's provision store.

John Gauthier was arrested on a warrant last evening for not paying a fine of \$80. The money was soon forthcoming, when he was liberated.

The barn of Mr. Wm. Craig, Raydon, was burned on Tuesday night. A "thief man" is missing. Whether he was "crimed" or has deserted is not known.

The great East Indian has been hunted out, and may now be seen standing in the door of the Drug Store. He comes to tell the people of Belleville to use East India Tonic Bitters for their spring medicine.

John McAlay and Paul Jones, of Thudow, were arrested for being drunk and disorderly last night and for driving immoderately over the lower bridge. Jones was fined \$2 or 10 days and McAlay was discharged.

Weekly Intelligence.—We have a number of extra copies of this week's Intelligence, containing many important events that have transpired during the past week. Among other the closing service of Messrs. Crowsley and Hunter. The papers can be had in wrappers ready for mailing.

Facts Worth Knowing.

In all diseases of the nasal apparatus membrane the remedy used has been non-irritating. The medical profession has been slow to learn this. Nothing satisfactory can be accomplished with denizens, snuff, powders, sprays, astringents, or any similar application, because they are all irritating; do not thoroughly reach the affected surface; and should be abandoned as worse than failures. A multitude of people who have for years come all weary and pain that catarrh can inflict, testify to relief and permanent cures wrought by Ely's Cream Balm.

Navigation.

The tug boat tried to get up to Trenton yesterday, but had to turn back on account of the ice.

The water tug between Deseronto and Picton, the Rathbun Co.'s tug making a trip yesterday.

The Deseronto commenced regular trips between Deseronto and Niagara to-day.

There is a large body of ice between Adolphstown and the Upper Gap, which is quite solid. There is also a large quantity of ice in Big Bay.

Personal.

Mr. Will H. Elvin left last night for Minneapolis, Minn., where he will abide for the future.

Mr. Jas. W. Langman, a prosperous dealer at Alliston, formerly of this city, was calling on old friends yesterday.

Mr. H. Corby, M. P., was able to be out to day.

TEMPERATURE.

As registered by Dr. Bell's Barometer—

Maximum 40, minimum 30, barometer 30.

PROBABILITIES.

Toronto April 20.—West to northwest. Fair weather, not much change in temperature.

An explosion occurred in the St. Leon colony, Worthington, last evening. Several persons were killed and several injured, three, it is feared, fatally.

UNTIL THE MICROSCOPE SHOWED US
THE CAUSE OF THESE DISEASES
WE WERE AT THE MERCY OF
THE ELEMENTS

THE MICROSCOPE HAS PROVED THAT THESE DISEASES
ARE CAUSED BY THE BACTERIA

I am going to tell you of the extraordinary changes your GUINOA REINDEER performed on me. About the 1st of April last I noticed some small pimples like corns on each ear.

and thought nothing of it until some time later, when it began to look like spots of mortar scattered on, and which came off in layers, accompanied with itching. I would scratch every night until I was raw, then the next night it

looping the delicate membrane in a constant state of irritation, allowing it no chance to heal, and as a natural consequence of such treatment not one permanent cure has been recorded. In Great Britain, where the scales, being formed insensitively, were scratched off again. In vain did I consult all the doctors in the country, but without aid. After giving up all hopes of recovery, I had cause to see the advertisement in the newspaper about a cure

Moreover, it is an absolute fact that these diseases cannot be cured by any application made oftener than once in two weeks, for the membrane must get a chance to heal before an application is repeated.

was an approximation is repeated. It is now seven years since Mr. Dixon discovered the parasite in catarrh and formulated his new treatment, and since then his remedy has become a household word in every part of the world. I began taking the CUTICURA REMEDIES, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I recommended the CUTICURA REMEDIES to all in my vicinity, and I know of

country where the English language is spoken. Cures effected by him seven years ago are cures still, there having been no return of the disease.

So highly are these remedies valued that ignorant imitators have started up everywhere, pretending to destroy a parasite, of which they know nothing, by remedies, of the most dangerous kind.

the results of the application of which they are equal ignorant. Mr. Dixon's remedy is applied only once in two weeks, and from one to three applications effect a permanent cure in the most obstinate cases.

Mr. Dixon sends a pamphlet describing his new treatment on the receipt of stamp to pay postage. The address is A. H. Dixon & Son, 2013 Kingston road, Toronto.

FOR DELICATE, SICKLY CHILDREN
Scott's Emulsion is un-qualified. See what Dr.

G. A. Black, of Amherst, N. S., says: "I have been acquainted with Scott's Emulsion of Liver Oil with hyp-phosphites for years, and consider it one of the finest preparations now before the public. Its pleasant flavor makes it

the great favorite for children, and I do highly recommend it for all wasting diseases of children and adults. Put up in 50c and \$1 size.

The change of late years in the treatment of Rupture is really surprising. Only a few years ago large Scrotal Hernia or Rupture would not have been treated.

Nothing so suddenly obstructs the perspiration as sudden transitions from heat to cold. Heat rarifies the blood, quickens the circulation and

increases the perspiration, but when these are suddenly checked the consequences must be bad. The most common cause of disease is obstructed perspiration, or what commonly goes by the name of catarrhus cordis. Coughs, colds,

more throat, etc., if attended to in time are easily subdued, but if allowed to run their own course, generally prove the fore-runner of more dangerous disease. Nine tenths of the consumptive date their affliction from a neglected cold, and

the diseases that are caused by wet feet, damp clothes, or exposure are more numerous than are generally supposed. One of the most efficacious medicines for all diseases of the throat and lungs is Bickel's Anti-Consumptive Syrup. It

Daisy's Prayer.

Darling little Daisy,
Will her golden hair
Sitting at the table
With her high chair
I should her dewy eyelids
Drooping the golden fall
Daisy's prayer writing
Bent over the table
Little head so fair
Daisy's prayer writing
Till she says her prayer.

Lower bow her forehead
On the table then
And she whispers softly
"Just say Amen."
Daisy's prayer writing
With her golden hair
May the blessed Saviour
Daily give you grace
May all your dreams venture
Any path to take
May you seek God's blessing
From all your fears
When the light of childhood
Shall have left your brow
May your faith in Jesus
Be as pure as now
From all sin and wandering
May good angels keep
And lead you to heaven
May you fall asleep
In the arms of Jesus
Gods of Pity.

"Seventy-four, seventy-five, seventy-six.
There, now my arms are all ready for Monday,
and I won't have to take my slate home
with me tonight," thought Marjorie, and
unhappily, as she put the last figure be-
neath the long row which she had been so
carefully adding.

Splash! came a wet sponge upon the
nearly-made figure, wringing half of them,
while the stream of water falling lazily
down the side made many more un-
decipherable.

Marjorie's cheeks grew scarlet with anger
as she saw her patient labor thus mis-
erably, and her eyes flashed only
only as she looked up and saw the laugh-
ing face of the schoolmate who was en-
joying the result of her practical joke.

"You're laughing at me!" she cried, and
reaching up she snatched the dripping sponge
and threw it with all her strength at the
schoolmate. It missed, she saw, however,
and struck against the white wall with a
sound which attracted the teacher's atten-
tion. An unsteady step on the wall showed
where the sponge had struck, and Miss
Dawson was surprised and indignant that
her scholar should so wantonly violate the
rules regarding orderly behavior.

"No three that sponge!" she inquired,
sternly.

"With a crimson face Marjorie rose, and
after a sharp reprimand from Miss Dawson
she threw the sponge first," thought
Marjorie, with a swelling heart she obeyed.

But Bella did not speak, although her
conscience reproached her for letting Marjorie
bear all the blame, and she felt that the
larger portion should have been her
share.

Through a mist of tears Marjorie watched
the slow bands of the clock creep round to
the hour of dismissal. Her heart was aching
with mortification and a sense of unjust
punishment.

This was the first time she had ever
been called to the platform, and she felt
the disgrace keenly. She felt that if Miss
Dawson could only have known all the
circumstances she would not have been
so harsh to her.

Marjorie's sense of school-honor, however, forbade
tear-bearing, and since Bella would not
speak she must bear the punishment alone.

At last school was dismissed, and too un-
happy to care about company, Marjorie
hastily walked home, alone, thinking that
she could overtake Bella and vent some of
her indignation. But Bella prudently kept
some distance between her.

"What's the matter, darling?"
Grandma's loving question made the re-
spondent feel that she had been wrong, and
that Marjorie's sobbing out her story.

"I'll just pay her up for this!" she said,
and her eyes flashed through the tears.

"Marjorie help you?"
"Why, grandma?"
"Suppose you try hanging coils of fire
on my wall?" suggested grandma.

Marjorie gave an impatient little trill
and said: "I might have known that
was what you meant," she said, discon-
tented. "It's no use to be nice to her, grand-
ma. She won't 'preciate it, and it would
only make her worse to me. I'll just leave
her unkindness' asked grandma.

"No," said Marjorie.
"Then I'm sure you'll just this once,"
pleaded grandma.

"Oh, I will to please you," answered
Marjorie. "But I know it won't be of any
use."

"Wait till you have tried it," answered
grandma.

"Suppose I don't have any chance to do
anything now," said Marjorie, but grandma
only smiled. She knew there would be
plenty of opportunities of showing kindly
feelings if Marjorie only watched for them.

The little girl did not have long to wait.
On Monday Miss Dawson discovered that she
had lost her geography at home, and she looked
at the loss of whom she might borrow.
There was only one at home before the time
of recitation, and it was Marjorie's.

"Did you ever try this way of returning
her unkindness?" asked grandma.

"No," said Marjorie.
"Then I'm sure you'll just this once,"
pleaded grandma.

Marjorie. "But I know it won't be of any

"Well, it's the last way to make any-
body ashamed of themselves," Bella
suggested. "I'll never leave you again,
Marjorie, if you will make up and be friends
with her."

Bella told Miss Dawson her share of the
disorder on Friday afternoon, and the
teacher removed the ten marks that had
been put against Marjorie's name.

"Your way was the best, grandma,"
Marjorie said, when she told the dear old
lady of the result of her kind action.

And I think all other little girls and boys
will think it is the best if they will only be
persuaded to try it.

A Dog's Gratitude.

Gratitude is something we are always
forgetting to remember, though we constantly
discover it where least expected.

A minister says that a number of years
ago, while attending the university, he spent
one day to be taking a stroll in the sub-
urbs of the city. A few rods from the
path was an open sewer drain, built of plank
and about four feet deep. As I was saun-
dering about, my attention was attracted by
a dog, who, I noticed, was sitting on the
edge of the drain, and looking at me with
a look of intense interest.

When the light of childhood

BELLEVILLE, TUESDAY, APRIL 24.

"ENGLAND, THE ENEMY."

Under the above caption the Detroit Evening News published in its issue of 20th inst. a remarkable and highly significant editorial. In this article the visit to the United States of the late Matthew Arnold and Mr. Joseph Chamberlain are made the basis of a furious attack upon Great Britain and everything British. Both of the distinguished Englishmen named were, it is alleged, warned upon by those to whom they were introduced in the United States, and both, the News alleges, formed a high opinion of the people of the neighboring Republic. To this opinion, it says, Mr. Arnold gave free vent on his return to England; but Mr. Chamberlain, having still an object to serve, namely the passage by the U. S. Senate of the factory treaty, continues for the time being to be "laffy" the great Yankee nation. Whereupon the News gives vent to its hatred of the "English enemy" in the following unvarnished style:

The matter involved in the treaty is really of little consequence in itself. The whole fact is that the Atlantic coast does not seem to be able to get along without a certain amount of trade with the British Empire. The question of the factory treaty is a question of trade, and the factory treaty is a question of trade. The factory treaty is a question of trade, and the factory treaty is a question of trade.

Whether they follow up with Chamberlain, or even with Arnold, the British people are not enemies. Sometimes they are, sometimes they are not. It is an impossible conflict. We are the great power in Asia. Russia is the great power in Asia. Britain has more subjects in Asia than Russia has, and so they are the great power in Asia. Britain has more subjects in Asia than Russia has, and so they are the great power in Asia.

The News, it is of importance to add here, was the first journal in the United States to boom the Wilmot scheme. It sent a special publication to Canada to misrepresent public opinion in this country with regard to that impossible project. It has been and is now hand in glove with the Toronto Mail in the advocacy of a customs union. Its explanation of the object which it has in view is timely, as therein is stated candidly the worst of the Mail's policy, and it is undertaken to perform, namely that of securing the annexation of Canada to the United States, by "keeping British questions open," by seeking to create discord, by using every possible effort to make the British connection uncomfortable to Canada, to wear the provinces from the empire, to draw them over to the United States. Has not the Mail done its best to fulfill its part of the contract, and have not the Globe, the Critt press generally and the Grit party as a body assisted?

There are loyal men in our midst—adherents to both parties—who have advocated the Wilmot scheme. The exposition by the Detroit News of its policy and the object which it has in view in siding with them make it clear that the inevitable tendency of such a policy is the extinction of British domination on this continent. It is unnecessary to say more.

CHARLTON'S INCONVENIENCE.

Mr. John Charlton, M. P. for North Norfolk, who is one of the Grit leaders, has three times demonstrated that he has no regard for consistency when party advantage or personal interest are at issue with his public professions. In 1878 he declared strongly in favor of protection to our manufacturing industries; but three years later, at the dictation of party, he strongly opposed the National Policy, he strongly opposed the stamp in Hamilton and elsewhere in favor of commercial union as advocated by Mr. Wilmot; later in Parliament, subsequent to the denunciation of that wild-out scheme by Mr. Edgar and the Globe and its abandonment by the Grit party, which substituted for it unrestricted reciprocity, Mr. Charlton once more changed his views and spoke and voted in favor of that form of the bill. But, presto! Mr.

REV. MR. HENSLY'S VIEWS. In the Metropolitan Church, Toronto, Sunday morning, after his sermon, Rev. Mr. Hensly said:

The attention of all Toronto has for some days been fixed upon one person. That person has been in the military in our Church for nearly a year, during which time I have been intimately acquainted with him as a pastor of St. James Street Church, Montreal, as Principal of the boys' school in New Brunswick, and as pastor at Lacrosse, Hennepin, Or, Iowa and here, and I never saw anything in him which did not win me to him in the strong confidence of warm friendship and fraternal love. Not one whisper was ever heard against him, nor one thought entertained questioning the propriety of his conduct or his integrity and purity.

One week ago yesterday I heard a full statement of the calumnious character which has since been published far and wide. With the right of friendship I went to him under the shadow of my own roof, and I admitted the truth of his whole heart. Admitting the two interviews with which he is charged, he denied positively the construction put upon them. His explanation is to me reasonable, and I feel that it is to be accepted by all who have a very great respect for his character and his integrity, and who are not weary of falling in with the Tory doctrine that the interest of a small class should be sacrificed to the general interest.

Which is a very gentle acknowledgment that Mr. John Charlton, acknowledged by himself, has strangled his fingers at the principle which he has advocated and is ready to vouch for his opponents on all occasions when his own position is threatened. But Charlton the owner of spreading plans is quite another individual. His interests must be protected. The Yankees must not be allowed to compete with his industry and lessen his profits. And so, at the behest of self-interest, he has been honest and just to the winds and supports so much of the policy of his opponents as will conduce to his personal benefit. And the Globe, solemnly warning us not to be misled by his scandalous exhibition of greed for personal gain, goes as gaily as a sucking dove its mild reproach of the offender and rears at the wicked Tories, as if they were the cause of Charlton's downfall. "Pretence how long will be tolerated by the intelligent men who are still to be found adhering to the Grit party and believing in the honesty of such men as Mr. John Charlton and the Toronto Globe?"

THOUSANDS OF DEATHS AND AS MANY INJURED IN CHINA.

SAN FRANCISCO, April 23.—The steamer from China brings details of the earthquake in Yunnan from the second day of the 15th month of last year till the 30th day of the month. There were ten shocks of earthquake, accompanied by a noise like thunder. Temples in Ship Jung and eight or nine tenths of the houses in the south are falling down and half of those in the east. The houses in the north are cracked or bent out of the perpendicular. The Chinese people, men and women, old and young, were crushed to death. The wounded and injured are over 300. At Tungkang over 800 were crushed to death about 700 or 800 wounded. At Nankang there are over 200 dead and over 400 injured. At Sihang there are over 200 dead and over 600 injured. At Peking about 100 were killed and the same number injured. The four last shocks were the most terrible. In the north and suburbs over 4,000 people are either killed or wounded, and eight or nine tenths of the houses fallen down and cracked and leaning over. At Kien Shui in the north about 200 were killed and wounded. In the Northwest about 200 to 400 people were overthrown, 240 people killed and 100 or 150 wounded.

The Fishermen Treaty.

ACTION TAKEN BY THE DEMOCRATIC CANTON AT WASHINGTON.

WASHINGTON, April 23.—The Democratic Senate held a caucus this morning to further discuss the fisheries treaty. It was proposed, in case the Republicans exhibit an unwillingness to ratify the Treaty to suggest that action be delayed until the summer should have a chance to test the new provisions in actual practice, but to support the treaty whenever it was possible and if possible secure its immediate ratification. This policy seemed to find general favor in the caucus but no vote was taken.

With the right of friendship I went to him under the shadow of my own roof, and I admitted the truth of his whole heart. Admitting the two interviews with which he is charged, he denied positively the construction put upon them. His explanation is to me reasonable, and I feel that it is to be accepted by all who have a very great respect for his character and his integrity, and who are not weary of falling in with the Tory doctrine that the interest of a small class should be sacrificed to the general interest.

Which is a very gentle acknowledgment that Mr. John Charlton, acknowledged by himself, has strangled his fingers at the principle which he has advocated and is ready to vouch for his opponents on all occasions when his own position is threatened. But Charlton the owner of spreading plans is quite another individual. His interests must be protected. The Yankees must not be allowed to compete with his industry and lessen his profits. And so, at the behest of self-interest, he has been honest and just to the winds and supports so much of the policy of his opponents as will conduce to his personal benefit. And the Globe, solemnly warning us not to be misled by his scandalous exhibition of greed for personal gain, goes as gaily as a sucking dove its mild reproach of the offender and rears at the wicked Tories, as if they were the cause of Charlton's downfall. "Pretence how long will be tolerated by the intelligent men who are still to be found adhering to the Grit party and believing in the honesty of such men as Mr. John Charlton and the Toronto Globe?"

Whether they follow up with Chamberlain, or even with Arnold, the British people are not enemies. Sometimes they are, sometimes they are not. It is an impossible conflict. We are the great power in Asia. Russia is the great power in Asia. Britain has more subjects in Asia than Russia has, and so they are the great power in Asia. Britain has more subjects in Asia than Russia has, and so they are the great power in Asia.

Killed by the Earthquake.

THOUSANDS OF DEATHS AND AS MANY INJURED IN CHINA.

SAN FRANCISCO, April 23.—The steamer from China brings details of the earthquake in Yunnan from the second day of the 15th month of last year till the 30th day of the month. There were ten shocks of earthquake, accompanied by a noise like thunder. Temples in Ship Jung and eight or nine tenths of the houses in the south are falling down and half of those in the east. The houses in the north are cracked or bent out of the perpendicular. The Chinese people, men and women, old and young, were crushed to death. The wounded and injured are over 300. At Tungkang over 800 were crushed to death about 700 or 800 wounded. At Nankang there are over 200 dead and over 400 injured. At Sihang there are over 200 dead and over 600 injured. At Peking about 100 were killed and the same number injured. The four last shocks were the most terrible. In the north and suburbs over 4,000 people are either killed or wounded, and eight or nine tenths of the houses fallen down and cracked and leaning over. At Kien Shui in the north about 200 were killed and wounded. In the Northwest about 200 to 400 people were overthrown, 240 people killed and 100 or 150 wounded.

The Merry Madmen case.

She was married before she "struck" the Her spirit sank as she beheld her new white gown blackened by the fire. The help a wagon run instead of helping her a ship. Just so a thousand trivial cases and neglected "small things" take the merit out of the lives of young girls and maidens. Particularly is this the case with diseases peculiar to their sex which take so much enjoyment and happiness from life. However a remedy is found in Dr. Pierce's Favorite Prescription for all female "weaknesses," or irregularities, nervousness, neuralgia, and uterine troubles. Ask your druggist.

The Fishermen Treaty.

ACTION TAKEN BY THE DEMOCRATIC CANTON AT WASHINGTON.

WASHINGTON, April 23.—The Democratic Senate held a caucus this morning to further discuss the fisheries treaty. It was proposed, in case the Republicans exhibit an unwillingness to ratify the Treaty to suggest that action be delayed until the summer should have a chance to test the new provisions in actual practice, but to support the treaty whenever it was possible and if possible secure its immediate ratification. This policy seemed to find general favor in the caucus but no vote was taken.

Cheese Factory Rebuilt.

Mr. J. K. McCargue has finished re-

building his cheese factory at Shannonville,

which was burned last fall and will com-

mence work on Monday.

The Atlanta.

The Atlanta has been purchased by Mr. W. T. Taylor, of Frankfort, and is being

re-fitted up by Brighton, where she has passed

the past three seasons. She is to be put in

good racing trim.

The Alexandria.

Mr. A. W. Hapburn, owner of the Alexandria, has been in the city yesterday, arranging

the repairs of the vessel. He stated that his boat would go up to Trenton

on Saturday, to be ready to make her first

trip on Monday.

Great Growth.

Before the revival the membership of Bridge Street Church was 398; now it is

754, an increase of 356. Before the re-

vival 13 class leaders sufficed to look after

the flock, now it requires 21, eight new

leaders having been added during the past

week.

Needed Reform.

The Peterborough Review refers to Rev. Mr. Leary as a level-headed minister, and

quoting his remarks on a recent occasion,

he says that Peterborough congregations

are bored in the same manner. An-

ouncement and lining of hymns should be

abolished.

Joint Committee.

The Finance and By Law Committee will

meet on Friday night to discuss the Bridge

By Law.

On Saturday the Finance and Fire Com-

mittee will meet for consideration of the

The Proposed Concert.

As an effort is now being made to have

the Mendelssohn Quartette Club of Boston

visit our city, the following short sketch of

the Club may be of interest.

The Mendelssohn Quartette Club of Bos-

ton, now entering upon its fifth season, is

the most extensively known Company in

this country. There is not a city or town

of importance in which the organization has

not been heard, nor is there any concert

company on the globe that gives more

a number of concerts. During a long and

successful career of nearly two score years,

the Mendelssohn Quartette Club has given

about ten thousand concerts in the cities

and towns of the United States. The

Club is unequalled as interpreters of

classical works of the great masters. How-

ever, the experience of many years has

taught them that it is necessary occasionally

to deviate from the policy of giving entirely

classical concerts. In order to make their

concerts both instructive and entertaining,

the programme of the club will contain

works which are calculated to please the

general public, as well as the most fasti-

dious of listeners. Quite naturally, during

the number of years that the Mendelssohn

Quartette Club has been before the public,

it must have undergone changes, as it is

almost impossible to keep the same five

persons together for thirty-eight years. This

is advantageous, because with the

young artists comes fresh blood and new

ideas, and the desire to keep pace with the

progress and advancement of the times. In

this way the club is kept at the head of

all similar organizations in America. In

the selection of a repertoire, the greatest care

has been exercised, and in the young and

handsome personality of Miss Anna Car-

penter, the Club has secured a singer who

will create a genuine emotion, and be a

decided feature in the club's concert.

Mr. Walter Donnelly has the sufficient

"guarantee list" about completed, and any

who have not already signed this list should

do so at once, in order to induce these en-

thusiasts to give one of their concert.

The Cricket Club.

At a well attended meeting held last

evening for the purpose of organizing a

cricket club for the coming season, the

following officers were elected:

Hon. President—H. Corby, M. P.

President—W. H. Biggar, K. P.

Vice-President—W. B. Burdett, M. P.

Secy.—T. R. Ritchie, Esq.

Secy.—T. R. Ritchie, Esq.

Captain—F. L. Follies.

Committee—J. P. Bogaert, Ed.

Corby and R. E. Lester.

The ground prepared last year is in ex-

cellent condition and prospects are excellent

for a good season.

DOMINION PARLIAMENT.

WEDNESDAY, April 25.

The Minister of Justice pleaded "un-

der" when he sent up a bill for a

reading dealing with the Supreme Court.

He said he wanted the bill pushed

through to completion before the House

rose. All of the big legal firms of the

country are interested in this bill, for

without its passage the May term of the

court could not be held. The Minister of

Justice has been showing with letters

about it. Mr. Justice Trenchard is ab-

solutely on leave, and Mr. Justice Henry is so

ill that he will not be able to be in his

place at the May term. The court cannot

be held without a quorum of five, which

is not possible under the circumstances.

The bill then is for the purpose of over-

coming this difficulty and it reduces the

quorum from five to four. It also provides

that when the court is evenly divided on a

case it shall stand for argument, but it

unless there be five justices on the bench

the court cannot sit. The bill is of much im-

portance he hoped the minister would not

press it to its final stage that day. This

Mr. Thompson agreed to and it stands for

further consideration to-morrow.

Mr. Burdett of Hastings had a good deal
